## "Someone needs what you have to offer"

Every year many adult Kansans experience diminished capacity and become unable to make informed decisions regarding their lives and finances. For those who do not have willing and able family members to assist them, fellow citizens can be court appointed as a guardian or conservator.

### KGP

The Kansas Guardianship Program is recruiting, screening and training interested persons to be court appointed guardians and conservators.

Individuals served through KGP are over 18 years of age, may have a disability, can be a senior without family involvement and unable to conduct their affairs, **and they need your help.**

### KGP Offers

- Opportunities to blend personal interests and abilities with those to be served
- Support from regional staff
- Networking and information
- Ongoing assistance and support
- Training and reference materials

### What volunteering with KGP can mean for you . . . .

- ❖ Be an instrument of change in another life
- ❖ Experience the satisfaction of having helped another person
- ❖ Provide a valuable service to another in your community
- ❖ Walk with another person on the road of their life
